TELLING THE TIME

En anglais, on n'utilise que les nombres de 1 à 12 pour désigner l'heure.

Vous ne direz donc pas

"vingt heures" ou "vingt-trois heures",

mais eight pm (*huit heures du soir*)

ou eleven-thirty pm (*onze heures et demie du soir*).

am = ante meridiem = avant midi.

pm = post meridiem = après midi.

Rappelez-vous que la lettre "p" se prononce [pi].

la lettre "a" se prononce [ei].
